

Furniture From Chandigarh

14 May, 2016

FURNITURE FROM CHANDIGARH — Furniture pieces designed by French architect and designer Pierre Jeanneret in collaboration with his cousin and celebrated architect Le Corbusier for the Indian city of Chandigarh are on view at Kukje Gallery until May 29. The exhibition displays chairs, desks, sofas and cabinets that were once used at public buildings in Chandigarh, in the state of Punjab, India, a city that was realized based on the modern architectural philosophies of Le Corbusier and Jeanneret in the mid-1950s.
